Environment Policy

PROBUILD LIMITED recognise that in managing their activities they have a responsibility to customers, employees, sub-contractors and the general public.

Probuild Ltd have therefore adopted an environmental policy, which incorporates the principles of sustainable construction.

The aim of this policy is to:

- Ensure that all applicable legislation, regulations and codes of practice are adhered to on all sites and works.
- Promote environmental awareness and commitment to the policy amongst all employees through the provision of training, and to encourage suppliers and subcontractors to apply sound environmental principles.
- Avoid the wastage of materials, water and energy by paying careful attention to their use.
- Always seek to use wherever possible, materials from renewable sources and recycled or recyclable materials.
- Encourage customers, where possible, to adopt the principles of sustainability in their design process.
- Design permanent works to:
 1. Minimise pollution and the use of energy during their occupation,
 2. Minimise the use of raw materials during construction,
 3. Minimise waste during construction,
 4. Improve the landscape, and
 5. Retain natural features where possible.
- Plan carefully to prevent pollution and minimise environmental disturbance as a result of our activities.
- Apply continual improvement by reviewing performance against targets and by reviewing objectives.
